

# Workstation CWS-01

## Key Features

### ■ 4 in 1

The workstation is equipped with an array of automatic functions that ensure effort-less maintenance of the robot. From charging to refilling clean water, draining waste water, and filling detergent, this station has it all covered. Discover hassle-free maintenance like never before with our innovative workstation.

### ■ Friendly user interface

The clear and concise human-machine interface enables people to understand the working mode and status of the working station without special training, which increases efficiency and reduces training costs.

## Specifications

|                        |                                    |
|------------------------|------------------------------------|
| Dimensions (Main body) | 18.1*10.6*33.9 in   460*270*860 mm |
| Weight                 | 99 lbs   45 Kg                     |
| Input Voltage          | 100-240 V a.c                      |
| Max.Power              | 1.34 hp   1000 W                   |
| Output Voltage         | 24 V                               |
| Operating Temperature  | 32~113 F   0℃~45℃                  |

# Charging Station CCS-02

## Key Features

### ■ Hassle-free maintenance with charging station

The charging station has the feature of automatically charging for the cleaning robots. When the battery is low, the robot has the ability to automatically return to the charging station to recharge itself, and once the charging is complete, it can automatically resume its previous task. Discover hassle-free maintenance like never before with our innovative charging station.

### ■ Compact design

The charging station saves space, offers flexibility, and ensures efficient cleaning. Its small footprint allows easy placement in any location, and optimal utilization of available floor area. The design provides convenience and enhances overall cleaning efficiency.

## Specifications

|                        |                                   |
|------------------------|-----------------------------------|
| Dimensions (Main body) | 16.5*8.9*24.4 in   420*225*620 mm |
| Weight                 | 60 lbs   27 Kg                    |
| Input Voltage          | 100-240 V a.c                     |
| Max.Power              | 1.34 hp   1000 W                  |
| Output Voltage         | 24 VDC                            |
| Operating Temperature  | 14~113 F   -10℃~45℃               |
